

COMMUNITY UPDATE MEETING

Wilson Boulevard Improvements

Check In & Next Steps

Arlington Traditional Elementary School
Multipurpose Room – Cafeteria
(855 North Edison Street)

Thursday, April 14 at 7 p.m.

Wilson Blvd. as of spring 2015

FOR MORE INFORMATION

VISIT ARLINGTONVA.US; SEARCH " WILSON BOULEVARD IMPROVEMENTS "

Meeting Topics

- Before and after traffic data collection and findings
- Collect feedback on project effects from community members
- Future complete street planning processes

Background

Following an extensive public process last year, the County embarked on a demonstration project targeted at improvements to safety and accessibility for all modes of travel by restriping Wilson Boulevard from North Frederick to North Manchester Streets. A commitment was made to collect traffic data and also follow-up with the community to gain feedback on impacts of the demonstration project.

This section of Wilson Blvd. was repaved and restriped from four lanes to three lanes, including a center left turn lane throughout and added bike lanes on both sides.
